EDUCATION

Masters of Science : Data Science

S.I.E.S College of Arts, Science and Commerce

07/2024 - Present

Bachelor of Science : Information Technology

S.K. Somaiya College, Somaiya Vidyavihar University
GPA: 8.7/10

09/2023

Mumbai

LEADERSHIP PROJECTS

Student Academic Representative, S.K Somaiya College, Somaiya Sept 2020- May 2023

- Designed and deployed 5+ responsive web pages and Android apps with regular updates in agile environments.
- Coordinated with executives across 3+ projects to define goals, timelines, and deliverables.
- Managed Android apps (Travel System, Login System, Wallpaper Engine), improving user experience by 25%.
- Created and maintained websites for a cake shop, automotive ad platform, boosting engagement by 40%.
- Oversaw content and SEO for travel and food blogs using WordPress and Wix, increasing traffic by 30%.
- Managed 2+ Shopify-based e-commerce sites, resulting in a 15% rise in conversion rates.
- Built a machine learning model for FIFA World Cup outcome prediction with 95% accuracy as a capstone project.

PROFESSIONAL EXPERIENCE

Oct 2023 - Present

Data Science Intern

Mar 2024 - Apr 2024

Prodigy InfoTech

- Performed EDA on 100K+ row datasets, improving decision accuracy by 15%.
- Cleaned & transformed raw data, cutting processing time by 30%.
- Built 20+ visuals using Matplotlib & Seaborn to reveal trends.
- Improved model accuracy by 12% through feature engineering.
- Applied statistical methods to guide 3 key business strategies.
- Analyzed real-time data to uncover 10% market growth potential.

Data Analyst Intern

Feb 2024 - Mar 2024

Cognifyz Technology

- Analyzed datasets with 50K+ rows to extract trends and insights.
- Used statistical techniques to transform raw data into 95% accurate insights.
- Performed EDA on complex data using Python (NumPy, Pandas), reducing analysis time by 30%.
- Documented 100% of analysis workflows to streamline team handoffs.
- Designed 15+ impactful visualizations for stakeholders, boosting data comprehension by 40%.
- Gathered and structured market data, identifying 3 key industry growth areas.

CERTIFICATIONS

- TCS iON Career Edge – Young Professional, TCS iON
- Blockchain Specialization, University at Buffalo (Coursera)
- IBM Data Science Professional Certificate, IBM
- Google Analytics for Beginners, Google
- Data Science Job Simulation, Boston Consulting Group (BCG), Forage
- Introduction to iOS App Development, Meta (Coursera)
- Power BI Job Simulation (PwC), Forage
- Data Analytics Job Simulation (Deloitte Australia), Forage

SKILLS

- Programming & Tools:** Python (PyCharm, Jupyter Notebook, Google Colab), SQL (MySQL), Git, GitHub
- Data Analytics & Visualization:** Power BI, Tableau, Excel, Data Analytics, Business Analytics
- Data Management:** Data Collection, Data Reporting, Data Cleaning & Transformation, Data Management
- Statistical & Analytical Skills:** Data Analysis & Interpretation, Statistical Analysis, Statistics
- Soft Skills: Problem Solving, Presentation Skills

EXTRACURRICULAR ACTIVITIES

Sports

- Felicitated for outstanding performance, Achievers Cricket Academy – Mumbai (June 2018)
- Represented college in U-19 inter-college cricket tournament (Oct 2018)
- Runner-up in singles, Mumbai Intercollege Badminton Tournament (Oct 2018)

LANGUAGES

- English (Fluent)
- Marathi (Fluent)
- Hindi (Fluent)
- German (Basic)

HOBBIES AND INTERESTS

Cricket, Badminton, Football, Cycling, Traveling, Music, Photography, Gaming, Reading Nonfiction Literature (Crime, History, Science Fiction)

LEADERSHIP PROJECTS

Student Academic Representative, S.K Somaiya College, Somaiya Sept 2020- May 2023

- Designed, implemented and monitored web pages with android applications for continuous improvement in a fast-paced environment.
- Represented in the development at meeting with executives and discussed project goals and milestones
- Managed android applications like travel management system, login system, and wallpaper engine.
- Designed & Managed websites like cake shop, automotive advertisement website, and games like tic tac toe.
- Responsible for handling travel and food Blogs sites on WordPress and Wix.
- Managing E-commerce websites on Shopify.
- Developed "Predictive Modeling for FIFA World Cup Outcomes: A Final Year Project" Experience
- Worked on Power BI dashboards for various clients to uncover valuable business insights.

PROFESSIONAL EXPERIENCE

Oct 2023 - Present

Data Science Intern

Mar 2024 - Apr 2024

Prodigy InfoTech

Performed exploratory data analysis on large datasets to identify patterns and trends.

- Cleaned and manipulated raw data.
- Created graphs and charts detailing data analysis results.
- Assisted in developing strategies around feature engineering, selecting appropriate metrics.
- Performed statistical analyses on structured and unstructured datasets with Python.
- Collected, tracked and reviewed data to evaluate business and market trends.

Data Analyst Intern

Feb 2024 - Mar 2024

Cognifyz Technology

- Analyzed large datasets to identify trends, patterns and correlations for business insights.
- Translated raw data into meaningful information using statistical techniques.
- Conducted exploratory analysis of complex datasets using Python libraries such as NumPy and Pandas.
- Maintained documentation of all the processes related to Data Analysis.
- Built visualizations that enabled users to quickly interpret results from complex analyses.
- Gathered and organized data to analyze current industry trends.

CERTIFICATIONS

- TCS iON Career Edge - Young Professional
- Domain name and web hosting

Cognifyz Technology

- Analyzed large datasets to identify trends, patterns and correlations for business insights.
- Translated raw data into meaningful information using statistical techniques.
- Maintained documentation of all the processes related to Data Analysis.
- Built visualizations that enabled users to quickly interpret results from complex analyses.
- Gathered and organized data to analyze current industry trends.
- Cleaned and analyzed 20,000+ rows of customer data using Pandas and NumPy to uncover spending patterns, leading to a 15% increase in campaign ROI.

LEADERSHIP PROJECTS

Student Academic Representative, S.K Somaiya College, Somaiya Sept 2020- May 2023

- Designed and developed 10+ interactive dashboards in Power BI using datasets from HR analytics, sales trends, and family-social metrics, improving business insight accessibility by 30%.
- Performed 15+ statistical and predictive modeling tasks in R and Python, achieving up to 85% model accuracy across academic and freelance data science projects.
- Cleaned and processed 100,000+ rows of structured and unstructured data using MySQL and Python, reducing data redundancy and enhancing analysis efficiency by 25%.
- Collaborated with multiple clients to deliver custom Power BI dashboards, enabling data-driven decisions that led to a 20% boost in operational performance.
- **Project: FIFA World Cup Outcome Prediction**
 - Built a machine learning model using Random Forest & Logistic Regression
 - Achieved 82% prediction accuracy on test data
 - Visualized results using matplotlib and seaborn for insights on country-wise performance
